DANGEROUS ABBREVIATION

The words 'Tabloid' and 'Soloid' should always be written in full to ensure the supply of genuine B. W. & Co. products.

When ordering a certain product an abbreviation may bring you what you do not want, and serious disappointment.

To write any contraction of 'Tabloid' or 'Soloid,' when these brands are intended, introduces an element of doubt. Why take the risk?

Behind the brands 'Tabloid' and 'Soloid' are years of research, experience and endeavour—the whole foundation of Burroughs Wellcome & Co.'s reputation.

When 'Tabloid' — — — or 'Soloid' — — — is written, in whatever part of the world the prescription is dispensed, the patient will receive the same genuine products of uniform strength and unvarying activity compounded with exceptional accuracy from ingredients of the highest standard of purity.

It is best and safest, therefore, to write the full word, *e.g.*—

R. Tabloid

TERMS

NEW YORK LIST PRICES NET

PRICES are subject to alteration without notice.

NEW ACCOUNTS.—Orders must be accompanied by remittance in full payment, or satisfactory references (preferably New York references) should be furnished. In no case can we send goods C.O.D. unless the order is accompanied by Cheque, Draft or Post Office Order for an amount to at least cover the cost of carriage.

PAYMENT.—Strictly net monthly account, without exception. Remittances should be made by Bank Draft, Post Office Order or Express Money Order.

As our prices are based upon cash in New York, all remittances should cover any expenses which will be incurred in exchange.

CARRIAGE AND PACKING.—Carriage to be paid by consignee in all cases, except in New York City, Brooklyn and Jersey City, where no charge is made for delivery. Method of despatch should be advised when ordering. In the absence of instructions, goods will be sent by such route as we consider best, all expenses being charged to the customer. Packing-cases are charged at cost and are not returnable.

BREAKAGE, LOSS, etc.—Goods are despatched at consignee's risk. Every care is taken in packing, and we are not responsible for breakage or loss during transit. Should either occur, however, we will do all in our power to assist the customer to obtain redress.

REGISTERED MAIL.—Unless otherwise instructed, it is our custom to register mail packages which in value amount to or exceed \$2.00.

OPHTHALMIC PRODUCTS, 'TABLOID' AND 'SOLOID' BRANDS

The words 'TABLOID' and 'SOLOID' are brands which
designate fine products issued by Burroughs Wellcome & Co.

'TABLOID' Ophthalmic products are minute in size, and as
thin as notepaper; they contain exact doses of pure drugs,
prepared with a perfectly innocuous and rapidly soluble basis.

In prescribing or ordering, it will be sufficient to quote the dis-
tinguishing letter; for instance—"R 'Tabloid' Brand Ophthalmic
'A.'"

,, Camera each 7.50

Pharmacopœial preparations are U.S.P. unless otherwise stated

PHOTOGRAPHIC PRODUCTS, 'TABLOID' BRAND

The word 'TABLOID' is a brand which designates fine products issued by Burroughs Wellcome & Co.

'TABLOID' Photographic Chemicals are much more convenient than ordinary chemicals. Their superior quality and accurate weight ensure the best results, whilst they entirely obviate the trouble of weighing small quantities, and the disappointments occasioned by the deterioration of stock solutions.

Developers

Packed in cartons, each containing the 'Tabloid' reducing agent and the 'Tabloid' accelerator specially prepared for use with that reducing agent.

'TABLOID' BRAND PRODUCTS

The word 'TABLOID' is a brand which designates fine products issued by Burroughs Wellcome & Co. To ensure the supply of pure and reliable preparations, this brand should always be specified when ordering.

'TABLOID' Brand products, the excellence and the advantages of which are now so universally recognised, are made under the supervision of specially trained and qualified chemists and pharmacists of many years' experience. They contain only the finest drugs, so that therapeutic activity is secured; they are accurate in dosage, easily carried, and keep well in any climate.

Burroughs Wellcome & Co. will undertake, for the convenience of the medical profession, the preparation of drugs and combinations of drugs (which are suitable for this method of administration) according to the private formulæ of medical men. Plain, in quantities of 1000 and upwards. Sugar-coated, in quantities of 3000 and upwards.

The Products of Burroughs Wellcome & Co. are guaranteed by them under the Food and Drugs Act, June 30, 1906.—Serial No. 3394.

N.B.—When ordering, the greatest care should be exercised to specify the 'Tabloid' Brand. Many, moreover, adopt the extra safeguard of adding the initials "B. W. & Co." or the full name "Burroughs Wellcome & Co." Any cases of substitution should be reported.

Pharmacopœial preparations are U.S.P. unless otherwise stated

THE RULE OF SCIENCE APPLIED TO INDUSTRY

In presiding over the Inaugural Meeting of the International Congress of Applied Chemistry, May 27, 1909, H.R.H. The Prince of Wales called attention to the value of scientific research, and emphasised, in the following words, the importance of science as a fundamental factor in the attainment of industrial success :—

“We all recognise that without a scientific foundation no permanent superstructure can be raised. Does not experience warn us that the rule of thumb is dead, and that the rule of science has taken its place ; that to-day we cannot be satisfied with the crude methods which were sufficient for our forefathers, and that those great industries which do not keep abreast of the advance of science must surely and rapidly decline ?”

RELIABLE PRODUCTS OF ERGOT

It is largely due to the efforts of B. W. & Co. that the therapeutics of Ergot have been placed upon a basis of scientific exactitude.

The successful researches carried out by the Firm's specialists have resulted in the introduction of reliable preparations of the pure, active therapeutic principles and of standardised galenicals.

Amongst them the following products are specially noteworthy:—

TRADE MARK 'ERNUTIN' BRAND PRODUCTS

For Oral and Hypodermic administration.

'ERNUTIN' is Ergot minus its uncertainties of composition. It presents the active therapeutic principles of Ergot—physiologically standardised.

(See also page 26)

TRADE MARK 'TABLOID' BRAND

HYPODERMIC 'TYRAMINE'

(Trade Mark)

'TYRAMINE' is the name given to the active principle of aqueous extracts of ergot (para-hydroxyphenylethylamine), presented in a state of chemical purity.

(See also page 33)

TRADE MARK 'TABLOID' BRAND

HYPODERMIC ERGOTOXINE

Presents accurate doses of the pure alkaloid. Rapidly soluble and perfectly stable.

(See also page 31)

TRADE
MARK 'TABLOID' BRAND

PLEATED COMPRESSED
BANDAGES AND DRESSINGS

Pleated Compressed Bandages and Dressings were originated
and introduced by Burroughs Wellcome & Co.

They meet the exacting requirements of modern
surgical science in every respect.

Made of materials of finest quality by perfected
methods, and under hygienic conditions.

Pleating, compression and careful packing safeguard
these products from contamination and deterioration,
and render them extremely compact and portable.

The bandages, of standard sizes, unroll as readily as
the ordinary loose varieties, and in the medicated
dressings the medicament is evenly distributed.

Also issued sterilised—a further improvement originated by
Burroughs Wellcome & Co. When ordering, please specify
sterilised if so desired.

(See also page 23)

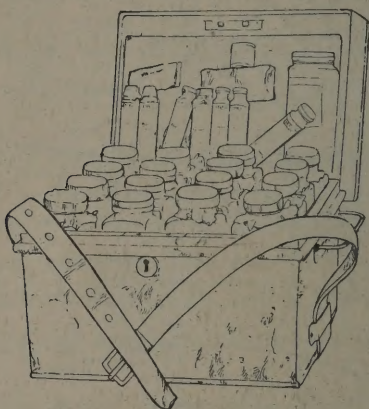

TRADE MARK 'TABLOID' BRAND MEDICAL EQUIPMENTS
IN ARCTIC AND ANTARCTIC EXPLORATION

'TABLOID' MEDICAL EQUIPMENTS
have reached the North Pole and as
near to the South Pole as man has gone.

ONE OF THE 'TABLOID' MEDICINE CHESTS
USED BY COMMANDER R. E. PEARY

Commander PEARY, writing from Etah, Greenland,
reports :—

“Burroughs Wellcome & Co. ‘Tabloid’ Medicine Cases
and Supplies have proven invaluable.”

BRITISH ANTARCTIC EXPEDITION, 1907-9

Copy of Report dated Sept. 17, 1909:—

The British Antarctic Expedition, 1907-9, was equipped with a very complete Medical Equipment contracted for solely by Messrs. Burroughs Wellcome & Co. and consisting of 'Soloid' and 'Tabloid' Preparations, which are the only forms that can be conveniently carried and preserved under such conditions.

The packets of Compressed Dressings are an extremely convenient form.

The Congo Cases (No. 251, 'Tabloid' Brand) were always used when at our base, and both the party of three who reached the South Magnetic Pole, and the party under Lieut. Shackleton, who attained a point 97 miles from the Geographical South Pole, carried a brown leather 'Tabloid' Case, and all the 'Tabloid' products that remain are now in as good condition as when first handed over to my care two years ago.

The *Nimrod* was also supplied with 'Tabloid' Cases and Equipment.

The 'Tabloid' Photographic Outfit supplied by Burroughs Wellcome & Co. proved entirely satisfactory.

Signed

BRITISH ANTARCTIC EXPEDITION, 1907-9

ERNEST H. SHACKLETON

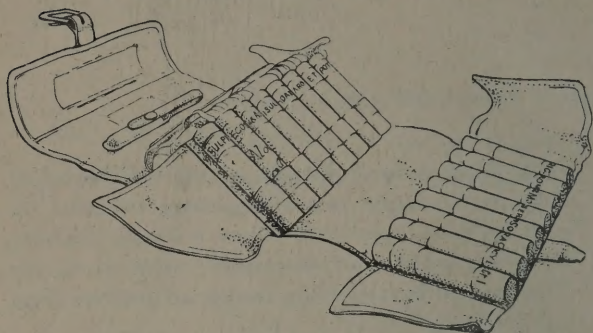

Commander

ERIC P. MARSHALL

M.R.C.S., L.R.C.P.

Surgeon to the Expedition

THE 'TABLOID' MEDICINE CASE CARRIED
"FARTHEST SOUTH" BY
SIR ERNEST H. SHACKLETON

The full record of this Case, as given in the report from the Surgeon to the Expedition, is printed below

Copy of Report dated Sept. 17, 1909:—

The B. W. & Co. Brown Leather 'Tabloid' Case herewith was :

Taken with party of six that made the ascent and reached summit of Mount Erebus, 13,350 ft., March 5th-11th, 1908.

Used on Southern Journey under Lieut. Shackleton

*Oct. 28th, 1908—March 4th, 1909.

Latitude $88^{\circ} 23' S.$ Longitude $162^{\circ} E.$

Distance covered in this journey, 1728 statute miles.

Used on S. Depot Laying Party, from Sept. 20th to Oct. 15th, 1908. Distance covered, 311 miles.

Taken on Depot journeys to Hut Point.
Aggregating 150 statute miles.

Medicines quite satisfactory.

Signed

E. P. MARSHALL, M.R.C.S., L.R.C.P.

Surgeon to the British Antarctic Expedition, 1907-9

* Reached "Farthest South," Jan. 9th, 1909

Also supplied in
Cowhide or Pigskin

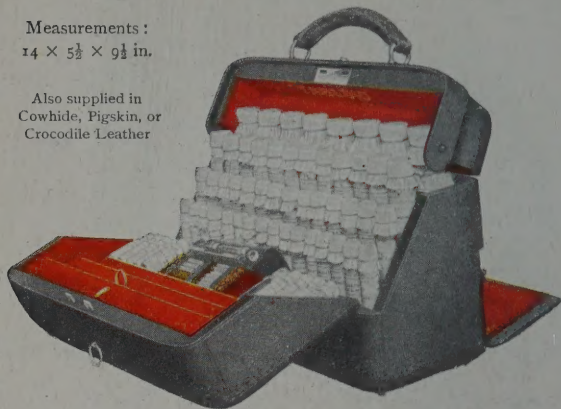

For particulars and prices, see pages 8-23

No. 221 'TABLOID' BRAND MEDICINE CASE

Measurements :

$14 \times 5\frac{1}{2} \times 9\frac{1}{2}$ in.

Also supplied in
Cowhide, Pigskin, or
Crocodile Leather

No. 221 Case (Morocco Leather)

No. 227 'TABLOID' BRAND MEDICINE CASE

No. 227 Case (Pigskin)—Partly Open. Also supplied in Cowhide
Measurements : $6\frac{1}{2} \times 3\frac{3}{4} \times 3$ in. Weight, about 2 lb. 6 oz.

For particulars and prices, see pages 8-23

No. 230 'TABLOID' BRAND MEDICINE CASE

A remarkably compact outfit of emergency drugs, instruments and dressings. Conveniently shaped for packing in trunk or bag. Instant availability is a feature in the arrangement of the contents of this case.

No. 230 Case (Cowhide)

Measurements: $8 \times 5\frac{1}{2} \times 2\frac{1}{2}$ in.

Contains 'Tabloid' and 'Soloid' Brand products, minor surgical instruments and emergency dressings

An ideal emergency case of drugs and dressings for motoring or touring

In Morocco Leather or Cowhide

For particulars and prices, see pages 8-23

No. 231 'TABLOID' BRAND MEDICINE CASE
(As suggested by Sir W. Moore)

No. 231 Case (Black Japanned Metal)

Measurements: $10\frac{1}{2} \times 7\frac{1}{2} \times 3$ in.

Weight, about 6 lb. 14 oz.

Contains phials of 'Tabloid' Brand products, minor surgical instruments and dressings, etc.

Fitted as recommended in Sir W. Moore's *Manual of Family Medicine for India*

For particulars and prices, see pages 8-23

No. 250 'TABLOID' BRAND MEDICINE CHEST

(As supplied to the late Sir H. M. STANLEY, EMIN PASHA, Military Expeditions, Missionaries, etc.)

No. 250 Chest (Janned Sheet-Steel)

Measurements: $15\frac{1}{4} \times 10\frac{1}{2} \times 8\frac{1}{4}$ in. Weight, about 40 lb.

No. 251 'TABLOID' BRAND MEDICINE CHEST

(As supplied to THE JACKSON-HARMSWORTH POLAR EXPEDITION,
THE NATIONAL ANTARCTIC EXPEDITION, etc.)

No. 251 Chest (Aluminium)

Measurements: $15\frac{1}{4} \times 10\frac{1}{2} \times 8\frac{1}{4}$ in. Weight, about 27 lb.

For particulars and prices, see pages 8-23

No. 254 'TABLOID' BRAND MEDICINE CHEST

(The Indian)

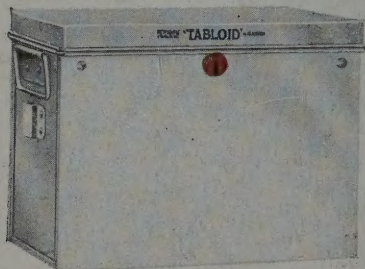

Ideal for missionary,
expeditionary,
or itinerary use

No. 254 Chest
(Japanned Metal)

Measurements:
 $9\frac{1}{2} \times 7 \times 6\frac{1}{2}$ in.

Weight, about 12 lb.

No. 256 'TABLOID' BRAND MEDICINE CHEST

Specially serviceable
for small expeditions,
etc., etc.

No. 256 Chest (Aluminium)

Measurements: $10\frac{1}{2} \times 6 \times 7\frac{1}{2}$ in.

For particulars and prices, see pages 8-23

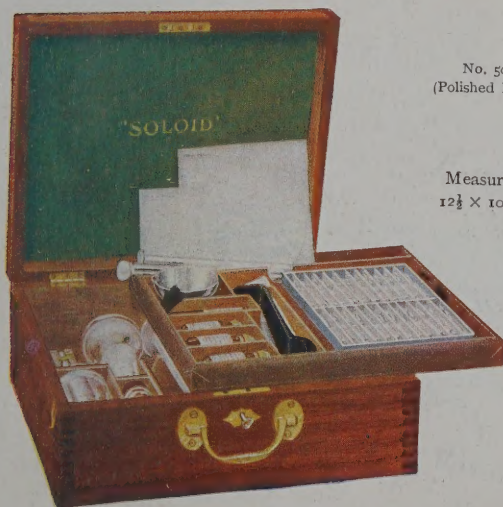

No. 300 'TABLOID' BRAND ANTIDOTE CASE

Measurements:
 $12 \times 6 \times 3$ in.

No. 300 Case (Polished Mahogany)

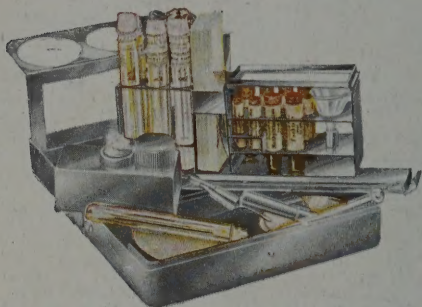

No. 500 'SOLOID' BRAND WATER ANALYSIS CASE

No. 500 Case
(Polished Mahogany)

Measurements:
 $12\frac{1}{2} \times 10\frac{1}{2} \times 4\frac{3}{4}$ in.

No. 505 'SOLOID' BRAND BACTERIOLOGICAL CASE

Easily rendered
aseptic

Complete with
Doeskin Cover

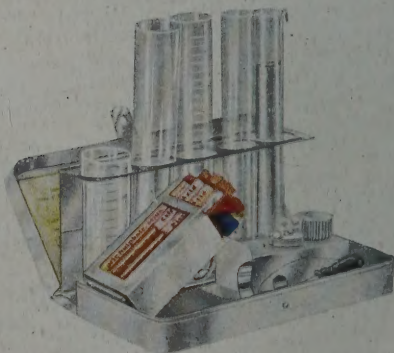

No. 505 Case (Nickel-plated Metal)
Measurements: $5 \times 3\frac{1}{2} \times 1\frac{1}{2}$ in.

No. 510 'SOLOID' BRAND URINE TEST CASE

No. 510 Case
(Nickel-plated Metal)

Measurements:
 $5\frac{1}{4} \times 2\frac{3}{4} \times 1\frac{1}{4}$ in.

Complete with
Doeskin Cover

No. 702 'TABLOID' BRAND FIRST-AID

No. 702 'Tabloid' First-Aid (Royal Blue Enamelled Leather)—Closed

Measurements: $7 \times 5\frac{1}{4} \times 2\frac{3}{4}$ in.

In Rex Red, Royal Blue,
or Brewster Green
Enamelled Leather

No. 702 'Tabloid' First-Aid (Brewster Green Enamelled Leather)—Open

No. 707 'TABLOID' BRAND FIRST-AID

Measurements:

$6\frac{1}{2} \times 3\frac{1}{4} \times 2$ in.

Also supplied in
Royal Blue
or Brewster Green
Enamelled Metal, or
in Aluminised Metal

No. 707 'Tabloid' First-Aid (Rex Red Enamelled Metal)

No. 905 'TABLOID' BRAND PHOTOGRAPHIC OUTFIT

Also supplied
in Rex Red,
Royal Blue, Imperial
Green Enamelled Metal,
or in Black
Japanned Metal

No. 905 Photographic Outfit (Bright Scarlet Enamelled Metal)

Measurements: $4 \times 4 \times 2\frac{1}{2}$ in.

TRADE MARK 'WELLCOME' BRAND

SERA AND VACCINES

Prepared by specialists at the Wellcome Physiological Research Laboratories according to the latest and most scientific methods.

These products are subjected to stringent tests for sterility and non-toxicity before issue, consequently they may be employed with the utmost confidence and freedom from risks.

An instance of the excellent keeping qualities of Wellcome' Brand Products:—

Careful tests of Diphtheria Antitoxic Serum, Wellcome,' have shown that after twelve months it contained a number of units in excess of that stated on the label, even in samples that had journeyed to and from India.

The excellent results obtained with 'Wellcome' Sera, two or more years after issue, show that the decrease in activity, if any, is such as is not clinically appreciable.

No hesitation need, therefore, be evinced by practitioners in procuring a selection of 'Wellcome' Sera as a provision against emergencies.

SOLUBLE ARYLARSONATES

TRADE 'SOAMIN' MARK

(Sodium Para-aminophenylarsonate in a pure and stable condition)

Solubility—1 in 5 at 60° Fahr.; 1 in 3 at body temperature. The value of 'SOAMIN' in Syphilis is confirmed in numerous clinical reports (details on request). Its action in clearing up stubborn ulcerations of the skin and mucous membrane and in removing condylomata is specially marked.

Solutions of 'SOAMIN' are neutral, and may be sterilised by boiling for five minutes.

(See also pages 42, 68)

TRADE 'ORSUDAN' MARK

(Sodium 3-Methyl-4-acetylaminophenylarsonate)

Solubility—1 in 4 at 60° Fahr.; 1 in $2\frac{1}{2}$ at body temperature. This arylarsonate has been employed in the treatment of Malaria, Syphilis and other Protozoal diseases, Neurasthenia, Rheumatoid Arthritis and skin affections. Distinguished from other arylarsonates by its greater solubility, and by its stability in solution.

(See also pages 36, 63)

TRADE
MARK 'VAPOROLE' BRAND

PITUITARY (INFUNDIBULAR) EXTRACT

Extract of the posterior lobe of the pituitary gland in hermetically-sealed containers of 1 c.c. = 0.2 gm. of fresh substance. (See Fig. 1)

(Actual size)

Fig. 1

Specially introduced for hypodermic injection. Physicians, by employing the 'Vaporole' product, ensure purity, uniformity, sterility, and full characteristic action at the time of administration.

Just break off the neck of the container at the file-mark. (See Fig. 2)

THERAPEUTIC ACTION

BLOOD-PRESSURE.—It produces a more prolonged rise than the supra-renal principle.

THE HEART.—It slows and strengthens the heart-beat.

THE UTERUS.—It causes a powerful contraction both in pregnant and non-pregnant conditions.

THE KIDNEYS.—It causes an increase in the secretion of urine.

THE B. W. & CO.

SUCCINIMIDE OF MERCURY OUTFIT

For the Mercurial Treatment of Tuberculosis

Provides physicians with the ideal means of administering this treatment. The Syringe is essentially modern in simplicity and accuracy, whilst the reliability and convenience of 'Tabloid' Hypodermic products are universally recognised.

CONTENTS OF OUTFIT

B. W. & Co. All-Glass Aseptic Hypodermic Syringe (H pattern, min. 20).

Barrel, piston and nozzle consist entirely of glass. No packing required and no screw-threads to wear out. Perfect action secured by accurate grinding. Injects every drop of solution. Easily sterilised.

Two Platino-Iridium Needles.

Two Tubes 'Tabloid' Hypodermic Hydrargyri Succinimidi, gr. $1/5$ (0.013 gm.), No. 98.

The preparation selected for the original researches.

TRADE
MARK

'WELLCOME' BRAND CHLOROFORM

Conforms to the requirements of the United States and British Pharmacopœias.

Provides the anæsthetist with a product of excep-

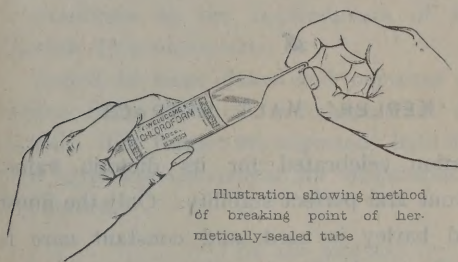

Illustration showing method of breaking point of hermetically-sealed tube

tional purity and uniformity in composition, and of unvarying reliability.

Free from impurities which irritate the respiratory tract and cause cardiac depression.

Characterised by containing that small, yet definite, proportion of ethyl chloride which clinical experience has proved to be so beneficial in the induction of chloroform anæsthesia.

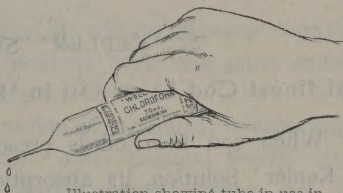

Illustration showing tube in use in place of a drop-bottle
